Anti-Money Laundering (AML) Compliance Policy

Investment Spot Ltd is fully committed to maintaining rigorous compliance standards and ensuring that our services are never used for money laundering, terrorist financing, or any form of illicit activity. Our Anti-Money Laundering (AML) framework aligns with global best practices, including the Financial Action Task Force (FATF) guidelines and the Basel Committee's Principles for combating financial crime.

Core Elements of Investment Spot Ltd AML Program

Our AML policy is structured around four essential pillars:

1. Internal Policies, Procedures, and Controls

We maintain clearly defined internal controls and compliance procedures to detect and prevent suspicious activity and maintain the integrity of our financial operations.

2. Appointment of a Compliance Officer

We have a dedicated Compliance Officer responsible for overseeing AML operations, ensuring adherence to applicable laws, and reporting to regulatory authorities as required.

3. Ongoing Staff Training

Our employees receive regular training to identify red flags and handle potentially suspicious activities in compliance with AML/CTF obligations.

4. Independent Compliance Review

We conduct internal audits and engage independent parties to review our AML procedures and recommend improvements.
